

ONE OF THE MOST VERSATILE PIECES OF EQUIPMENT YOU WILL EVER OWN

- Form & Maintain
- Construct Terraces
- Spread Rock & Gravel
- Drainage Ditches
- Remove Snow
- Clean Feedlots

Available in 8', 10' or 12' models. The Westendorf Landscrapper™ has a 3" lift cylinder, an extra strong tongue constructed of square tubular steel and a large weight box that provides additional cutting pressure.

This unique system allows each wheel to be adjusted independently to provide 0-12" tilt of the cutting bar.

Optional hydraulic tilt cylinder, transport lock and jack stand available.

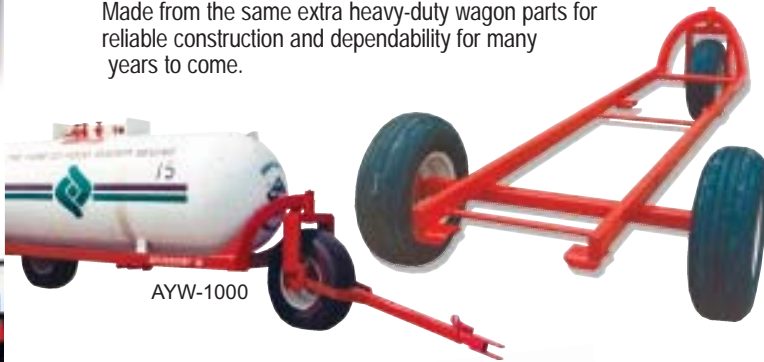

6" HIGH CARBON STEEL CUTTING EDGE

ANHYDROUS WAGON

Gives you the 5th wheel wagon trailing advantage without the tip over problem - for 1000 gallon anhydrous tank. Made from the same extra heavy-duty wagon parts for reliable construction and dependability for many years to come.

AYW-1000

HITCH-N-GO

REMOTE CONTROL HITCH FROM THE CAB

Easily attach wagons, hay racks, trailers and more to the tractor quickly and easily from the tractor seat.

Patented spring mechanism allows trailing over rough terrain without bending hitch pin or cylinder. It fits 3-point hitches and pulls directly from drawbar for strength & safety.

LBT-20

WESTENDORF LOWBOY

THE EASIEST TRAILER TO LOAD!

With the same reliable durability as the wagon gear, the Lowboy trailer lies flat on the ground. Just drive right over it with the tractor to unload. The axle adjusts hydraulically to any position to balance the load.
